

# Zelis Network Solutions for Providers

Expand your patient reach and gain administrative efficiencies to grow your practice

In today's complex healthcare environment, providers face the dual challenge of reaching new patients and alleviating administrative burdens from time-consuming processes including credentialing, billing, and claims management.

**Zelis Network Solutions offers a comprehensive solution to these challenges, enabling you to grow your practice and improve efficiency.**

#### **Faster and predictable payments:**

Facilitate timely claims and expedite payments within contracted timeframes and eliminate the guesswork in payment amounts for faster billing, collection, and reconciliation processes.

#### **Expand your patient reach:**

Gain access to patients you might not otherwise reach through our extensive network.

#### **Streamlined administration:**

Identify discount sources with Explanation of Benefits (EOB) messaging.

#### **Easy Enrollment:**

Enroll easily as ancillaries and hospital-based providers are exempt from lengthy credentialing processes. Simply sign a contract and provide current demographics and W-9 information.

## Why Choose Zelis?

#### **Partnership that evolves with you:**

We're passionate about your success. We work with you to build the right solutions, helping you scale and grow.

#### **Technology built by healthcare experts:**

We harness technology to create win/win solutions, allowing providers to focus on delivering care to people when and where they need it.
